

MY CHARITY EXPERIENCE.

On the 6 of the 3 month of 2019. I had my first sadaqah experience .Now, before I talk about my sadaqah experience I'd like to talk about sadaqah and its benefits.

It is reported from the prophet (PBUH) that he, (PBUH) said "Sadaqah extinguishes sins just like water extinguishes fire." Allah mentions in the Quran (Holy book of Allah) "If you give alms openly it is well and if you hide it and give it at night time it is better for you and Allah is aware of what you do." (Surah Al-Baqarah)

The first talks about the greatness of sadaqah. But the second proof Allah talks about the intention and how to strengthen it.

Let me tell you guys a story...

One day a thief wanted to steal from a store. So he brought with him a bat (the animal). Quite a great distraction isn't but not a great one for a man with a sniper. So the man like any other person pointed the sniper at the thief. At this point any normal thief would ran away, but just not this one instead he

started to beg the owner for his pardon and told him he was poor and needed money. The man forgave him and gave him water, food and other basic necessities he had. One year later the same man called the owner of the shop and said. Thank you very much the food you gave me last year helped me earn a living and here I am in the mosque making this call.

This story teaches us that sadaqah cannot be under estimated.

As for my experience,

My experience was the most amazing action I've done. Yesterday me and my classmates were accounting the sadaaqah we also didn't have Quran lessons. When the buses arrived majority of us left except a few. Then our final day awaited us .it all started on a cloudy Wednesday morning our first activity was to go grab tables from the school and to put in the front of the school, then to carry the sadaaqah to the tables . Then for the final bit the giving now, each year 7 was paired with a year 1 we were instructed to give two bags of sadaqah then leave but for me it did not seem to work. Nobody stopped to come by until one of my teachers showed them our booth also they didn't let us say asalamu alaikum. Other than that I can only sum up my whole experience into one sentence.

**My sadaqah
experience**

WAS....

EXTRODINARY!!!!

NOTE: sadaqah was a gift amongst human beings for a longtime no matter what color you are black, white, and red large tiny also no one becomes poor from giving.

Anybody who gives in the way of Allah has a great reward in store for him on the Day of Judgment. Always remember that your intention is for Allah and not for anybody else. If you are not able to give any money or clothes in the way of Allah just smile for smiling is a form of charity.

My name is Zakareya Mohamed and thank you very much for reading my passage. . . And special thanks for those who let me have that experience.
